

The Carbon Chronicle

New Volume 2, No. 24

CARBON, ALBERTA, THURSDAY, MARCH 13, 1947

Authorized as second class mail, Post Office Department, Ottawa.

CARBON NEWS

A little trouble with our press but mostly with the sheriff who wants possession of our residence on Monday, caused the delay in publication this week.

Will your name be on the list of contributors to the Red Cross? Better see a canvasser right away.

★ G. W. Wacker's Auction Sale, half mile west of Swallow on Tuesday, March 25th. Full line of machinery and some furniture. N. Boese, Auctioneer.

Trochu defeated Three Hills 5-2 on Three Hills ice to win the Big Five Hockey League play-off, two games to one. The largest crowd of the season was on hand for the final contest.

Children save your pennies. Only ten to make a dime. And bring your parents to the JUNIOR AID FISH POND, Where a catch is made every time.

Lt. Doug Ross, RCN, Vancouver, spent a few days with Mr. and Mrs. F. Emery en route to Halifax.

Mr. and Mrs. C. Reid, Jr. are visiting at the home of Mr. and Mrs. C. Trumbley before leaving for Vancouver Island.

Mr. and Mrs. Leo Ohlhauser of Turner Valley spent a day at the home of Mr. and Mrs. G. Ohlhauser, Carbon.

Mr. and Mrs. R. Hay spent a couple of days in Calgary last week.

A large number attended the show sponsored by Mr. C. A. Gressman on Monday evening. Claude is quite active in bringing these educational shows to Carbon, this being the second one this year.

There will be a service in Christ Church, Carbon on Sunday, March 16th at 3 p.m., Canon T. B. Winter in charge.

★ Beiseker Community sale will be held on Thursday, Mar. 20th. N. Boese, Auctioneer.

John Gieck has purchased Mr. A. Biebrick's house in Carbon and Mr. and Mrs. Biebrick have left to reside in Calgary. Miss Verna Biebrick will remain in Carbon where she is employed at C. H. Nash and Son store.

Bert Charlebois was in Calgary for a few days this week.

★ Want that saw sharpened? Bring it in to the Chronicle Office.

★ The Junior Ladies' Aid will hold a tea and sale of fancy work and home cooking in the Scout Hall, on the afternoon of March 29th.

★ Carbon Old Timers' are sponsoring a dance in the Scout Hall on St. Patrick's Day, Monday, March 17th.

BOOK EXPLAINS VET LOANS

Obviously written by a serviceman for veterans of World War II, a 16-page booklet, "What's the Score on These Veteran Loans?" issued by Bank of Montreal and now available at your nearest branch, throws much light on the question of loans to returned men.

The attractive little booklet is written on the question and answer style so popular to servicemen during the war. The pamphlet will be of special interest to men of the services now anxious to get into business for themselves.

BOY FOUND DEAD

The body of 13-year-old Victor Carl Szarka, son of Mr. and Mrs. Steve Szarka of Redland, was found Sunday with a gun shot wound in the temple. His parents reported he had left his home Saturday to go shooting.

Coroner Dr. G. H. Whitmore said no inquest will be held. Constable Ross, R.C.M.P., Carbon, investigated.

Besides his parents he is survived by a sister, Mildred, at Calgary and a brother, James at Redland.

Funeral services were held at Rockyford Wednesday with Rev. A. J. Cowan officiating. Interment was in Drumheller cemetery.

In the Legislature

By H. G. HAMMILL, M.L.A.

Hon. W. A. Fallow in taking part in the Debate on the Speech from the Throne, reported that over 4500 miles of main highways had been maintained last year and also nearly 3,000 miles of district highways. Last year over 1,800 miles of municipal roads were constructed and nearly 1,200 miles gravelled, with municipal grants.

Three hundred and seventy one miles of main highways were constructed last year and 581 miles of main highways were surfaced with gravel. Nearly 100 miles of road were given the base-course treatment.

More than 40 steel bridges were repaired or built and over 200 timber bridges. Ten steel bridges are presently under construction four of which are on the Grimshaw highway.

Revenue in this department for 1946 from Vehicle and Highway Traffic Act, Fuel Oil Tax Act, and Highway Traffic Board was close to \$9,000,000.

In replying to criticisms by the Opposition, Mr. Fallow gave the following information from the Public Accounts of the Province of Saskatchewan.

Last year, by an educational tax, they collected more than \$5,500,000; by public revenue tax (which is similar to our past social service tax) they collected \$2,158,000; and by the collection of direct relief extending back from 1930, they collected nearly \$5,500,000 more. This money collected on direct relief included medical services, feed grain, fodder and grasshopper and gopher extermination. All of these same debts in Alberta have been cancelled by the Alberta Social Credit government while in Saskatchewan they have forced collection of these debts from the farmers, many of these debts dating back for 16 years. Saskatchewan paid less for education than was collected by the educational tax and so took nothing from the rest of their provincial revenue for educational assistance.

"One out of every eight Alberta citizens was X-rayed for T.B. last year," reported Dr. W. W. Cross, when taking part in the debate. "The death rate

from this disease had been reduced 25 percent since the present government took office.

"Last year more than 11,000 patients were checked in the two cancer clinics. Approximately one half of this number did not have the disease.

"Fourteen buildings have been purchased from the Red Deer Army Camp which will be used to enlarge the facilities at the Red Deer Training School.

"When six more municipal hospitals are established in the province we will have sufficient hospital beds for all our citizens," said the minister.

CLASSIFIED ADS

FOR SALE -- Gents CCM bicycle. New. \$35. Apply John Marine, Carbon.

FOR SALE -- 20 run power lift M.H. drill with packers; 22 run IHC drill; 24 run IHC drill with power lift; also a few other farm implements. Dave Gibson, Swallow.

FOR SALE -- 8 1/2" Cockshutt tiller complete. Apply Reuben Ohlhauser, Carbon.

FOR SALE -- Registered Hereford bull, rising 3 years. Domino breeding. Apply to Jas. Snell, Carbon.

FOR SALE -- Registered Berkshire boar. Rising 2 years. Apply Dave Gieck, Box 232, Carbon.

CORN

With present production above prewar level, corn processors are becoming optimistic about an early end to the shortages of starch, syrup and related products which have made shopping difficult for housewives for the past several years.

"Present production in Canada is more than enough to supply normal demands," G. F. Denson, Jr. president of The Canada Starch Company Limited said but added that, "It will be some time yet before depleted inventories have been built up by wholesale and retail grocers and until then, there may be occasional shortages in some localities."

The shortage over the past few years resulted from failure of corn crops in Canada and elsewhere. The Cardinal plant, one of the largest producers of products from corn, was closed for several months last year because of the inability of the company to obtain supplies of corn from any source.

Manhood, not scholarship, is the first aim of education.

EASY MONEY

It's warble time again, and time for action. Action last year brought 30,000 Alberta farmers a gain of \$5.00 per head on 600,000 cattle. To 60,000 others, in action meant loss. The season is short, the prize attractive, and now is the time for every cattle owner to ensure his share of the profits.

The warble or heel fly is Alberta's most expensive cattle pest, and the easiest to control. At this time of year simple treatment is all that is needed. Once the larva has hatched from the egg and entered the host, nothing can stop its 8-month migration through the animal's system. Not until it arrives under the skin of the back and bores its breathing hole can we attack it. There is nothing we can do to stop the inflammation, irritation, discomfort and unthrift which attend the grub's painful course. These effects of last summer's infestation have by now cost the owner approximately \$5.00 per head in reduced production, damaged hides and feed wastage.

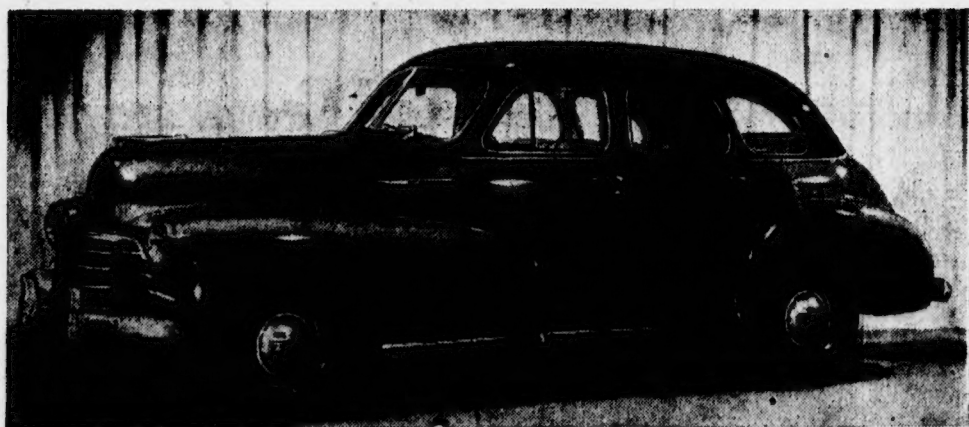

Thirty thousand Albertan stockmen avoided all this. It cost them about 5 cents per head a small expenditure in return for such a handsome dividend. These men highly recommend warble fly control, not only as good business, but as a humane act toward their cattle. Treatment is cheap, easy and completely effective, and it's warble time now.

LET BARLEY HELP

The demand for increased barley acreage in 1947 offers a real opportunity to clean up some of those weedy fields and to produce a profitable crop at the same time.

If an early barley is used some of our most troublesome weeds can be controlled effectively. Among them are annuals such as wild oats, wild mustard, and tartary buckwheat. In the perennial class both sow thistle and Canada thistle can be given a serious set back as a result of competition from a thriving barley crop.

If fertilizer can be obtained and applied at the time of seeding, the crop will be stimulated and increased competition against weed growth provided. Proper handling of the crop is very important in the fight against weeds. Details of correct procedure can be had from district agriculturists or from the office of the supervisor of soil conservation, weed control, department of agriculture, Edmonton.

Restyled for 1947 with the emphasis on a more massive front end and a smoother sweep to body contours, the new Chevrolet is announced. New front end grille and complimenting bright work, as well as elimination of the body belt moulding, have done much to give the new model an air of greater luxuriousness. This year, the usual shutdown for retooling was avoided and there was virtually no decrease in the rate of output when the new models went into production.

IN APPRECIATION

It has been a pleasure to serve you during the past three years. Having disposed of our property in Carbon we wish to take this opportunity of thanking you and all for your friendship and patronage.

"Desire to Serve-plus Ability"

THE AIM OF THE ALBERTA EDUCATIONAL COUNCIL

In view of recent criticism in the Legislature of the purpose of the Alberta Educational Council it would be well to repeat that this organization has arisen in response to a province wide belief that education, and particularly education in rural schools, is becoming progressively inefficient through a shortage of well trained teachers. The Council has no political purpose. It is difficult, of course, for any group or organization to urge vigorously change and reform in any social institution so basic as the school without those who are responsible for its administration feeling that they themselves are personally under attack. But a study of the constitution of the Alberta Educational Council will reassure citizens of the purely educational objectives of this Council. A glance over the list of the varied co-operating public organizations will make it clear that people of all political faiths and religious creeds are supporting this organization as it strives to secure a better deal for rural children. The Council recognizes that before the Legislature will aid elementary and secondary education to 50 percent of its cost, it will have to know that such a reform has the support and approval of a large percentage of the voting population. The activities of the Council in the press, over the radio, and on the public platform have been directed to the one purpose of informing the public as to the present situation in rural schools and of rallying citizens everywhere to support this much needed change in the methods of school

"Cash in" YOUR EMPTY BEER BOTTLES

The shortage of bottles is acute. In order to maintain the current supply, Brewers of Alberta request your co-operation in returning empties. Don't keep empty bottles around the house. Apart from taking storage space, they represent cash to you. If you live in points where Branches are located (see below) phone for a pick-up, or deliver them yourself. If you live in points where such branches are not located, ship your empties to the nearest point, "freight collect." Payment will be forwarded to you, promptly. Get out your empties, and turn them into Cash!

Little crippled children will romp and play again

because of your Red Cross help

WITHOUT the help of the Red Cross, many little children, whose parents cannot afford medical and surgical treatment, would have to go through life with crippled arms, feet, or other deformities. With the help of the Red Cross, scores of little ones will romp and play again and grow up as healthy, normal men and women.

In some localities the Red Cross maintains its own hospitals for crippled children. In other localities it supports the splendid work being done by modern children's hospitals. This work must be continued, and expanded. It is directed by the Junior Red Cross. Will you help restore these little crippled ones to normal health and strength?

JOHN ATKINSON, SR., CAMPAIGN MANAGER

CANADIAN  RED CROSS
The work of mercy never ends-Give

Democracy in Action

As this is being written provincial legislative assemblies are in session in Canada and three

others are scheduled to open soon. It is unfortunate that many "commentators" and students of public affairs pay little attention to these important links in the Canadian scene. Closer to the lives of our people than a federal government can be they deserve more recognition.

Schools, roads, bridges, and old age pensions are among the vital things that, under our constitution, are the primary responsibilities of our provincial legislatures. Although changing conditions have made it necessary for the federal government to

assist in many things, provincial responsibilities are still jealously guarded in all provinces and much understanding and compromise will still be necessary if we are to work out divisions of responsibility in keeping with our changed conditions.

Party Standing

The representation of the various political parties in the legions political parties in the legislatures is interesting. Only one party, the 'Union Nationale' of Quebec is strictly a provincial party. The provincial representation of another, Social Credit, is almost altogether confined to the province of Alberta: having only two members outside, both in Manitoba. The total party standing is Liberal 187; Conservative 116, CCF 77, Social Credit 54, Union National 49, and others 24. The "others" includes nine service representatives in the three prairie provinces. Increased interest and participation in both municipal and provincial governments are needed if Canada is to maintain the well balanced economy required in the interests of all her people.

Liberals are represented in all provincial legislatures if the two Liberal "independents" in Alberta are included; Conservatives are represented in six provinces and the CCF five.

Legislation to confirm tax agreements with the federal government will be asked for in at least six legislatures.

Trade Again

There is much interest here in informal talks that John Strachey, British Minister of Food had in Canada with respect to Canada's purchase of British goods. The facts which have come to light show that under Britain's Socialist government production for export, the life blood of that island people, is very low and of the little that is being exported much is being directed by the labor government to other parts of the world. The three reasons given for this are (a) The need of European countries a great; (b) Higher profits can be made in shipment to countries like India; (c) Elaborate licensing machinery would be necessary to direct exports to Canada.

WORLD OF WHEAT

By H. G. L. Strange

Registered Versus Commercial Seed

If a farmer requires a moderate amount of seed up to say 50 bushels, he is well advised to pay the little extra money and to purchase registered or certified seed sealed in the sack. In some areas, however, frost damaged grains to the extent that germination, particularly of oats and barley, is too low to sow. Where this occurred some farmers may wish to purchase quite large amounts of seed. Commercial seed, loose in carlots, would have to be bought. Commercial seed, especially No. 1 (No. 3 should on no account be purchased unless sheer necessity drives) is of high germination and is reasonably free from noxious weeds, but can have a high content of secondary weed seeds and of other kinds of grain. The chief defect of commercial seed, however, is that no variety is guaranteed. It may consist of a mixture of a dozen different varieties and still be classed as No. 1 commercial. On the other

A LOW-PRICED CAR WINGS AWARDED POSTHUMOUSLY

The new model automobiles are admirable in appearance. The streamlined bodies, the expansive chromium fittings and the richly upholstered interiors combine to make the modern vehicle an object of beauty. It's a pleasure to ride in one. But in our opinion the manufacturers have made one mistake: They have gone to so much expense in making their cars look attractive that they have pushed the price beyond the means of the average working man and time may prove that they have lost for themselves thousands of prospective buyers.

There is a heavy demand at the moment for new automobiles, but a few months' production may change the situation to such an extent that dealers may have to get out and hustle for sales. If and when that time arrives, the manufacturers will soon learn that many Canadians cannot afford to pay \$1500 for a new car, which is about the cost of the lowest priced machine on the market today. The careless spending of wartime days is past and people are beginning to be more careful with their money.

The majority of Canadians want a car for transportation purposes, rather than for its beauty. They want a machine that is sturdily built and mechanically sound, and many would be willing to accept a car of plain appearance provided the primary requirements are met. We think that if a manufacturer were to make a car without the fancy trappings and chromium plated adornments so as to keep the cost down to around \$1000 he would find lots of customers. The need in Canada is for a low cost people's car, so that workers in the lower income brackets can enjoy the pleasures of motoring.

LICENSE PLATES MARCH 15

New motor license plates will be made available to Alberta car owners by the provincial secretary's department about March 15. This information has been received by officials of the Alberta Motor Association.

This year as in the last few years a single plate will be issued to be attached to the rear of the vehicle. Next year it is hoped that two plates will be issued, one for the front and one for the rear, but this will depend on whether the manufacturers have sufficient material.

As in previous years license plates will be available at AMA branches in Edmonton, Calgary and Lethbridge.

These branches issue thousands of license plates and driver's licenses each year and it is a convenience that is greatly appreciated by motor car owners.

In view of prospects for increased car production and expectations for a big holiday traffic, it is expected that applications for car licenses will be the heaviest in many years.

hand registered or certified seed is guaranteed as to variety. Commercial seed then should only be purchased, either where it is impossible to buy registered or certified seed or where the amount required because of climatic troubles is very large.

FO Harold E. L. Chapman, 24 who was killed in Fede Fjord, Norway, April 1945, has been posthumously awarded the Operational Wings. His parents, Rev. and Mrs. T. H. Chapman of Maple Creek, received the award recently.

FO Chapman was born in Nova Scotia and came to Lacombe when he was seven years old. He attended Lacombe public and high school and before enlisting He trained at Regina and was stationed at Toronto nine months. He went overseas in October 1943.

BATTLELINE

A resolute campaign is being fought to sever the links which bind Britain and the United States. The main inspirers of this campaign, determined at any cost to split Britain and America apart, are those who are also trying to fasten a materialistic ideology on the world. British American unity can be the strongest link defending moral and spiritual values against the onswEEPing tide of godless materialism. And, if these two countries are separated, then the whole conception of Christian freedom may vanish from the earth.

But the real threat to democracy comes from within, not without. For democracy is not a mere system of votes, economic or politics. It is a way of life. Freedom is possible only when millions of people think and live selflessly for their community rather than selfishly for themselves. And nowadays, we, the democratic peoples, do not always live in the way which makes the birth and survival of freedom possible.

Enemies of democracy pick upon these weaknesses. It was so with Hitler. He knew materialism was the maggot in the apple of freedom. He used examples of materialism in British and American life to discredit democracy to the world. He struggled to separate Britain from America recognizing how strong a bastion of liberty that combination could be.

The urgent need is for the peoples of the democracies to accept and live their own inspired ideology. They will not then need to fear the materialistic ideologies of race or class rule. For the ideology of democracy is bigger than any sectional power bid. It belongs to all classes and races. It belongs to all free people everywhere.

It alone can bridge the gulfs which today appear to be widening between the nations. It is as universal as human nature and it means change in all human nature. It is the one idea big enough to unite all the peoples of the world.

BEISEKER NEWS

The Beiseker Curling Club held their annual meeting and banquet in the Lions Club Room last Monday. Election of new officers was the main part of the business and those elected were President, Carl Lohrke; vice president, Carl Schmaltz; secretary, Leo Schmaltz; directors, Nick Schmaltz, Frank Schmaltz, Alec Uffelmann, F. Meidinger and Lou Brosteau. The winners wish to thank the losers for the swell feed.

New members initiated into the K. of C's in Calgary last Sunday include Lou Brosteau, Felix P. Schmaltz, Raymond Schmaltz and Max Wald.

Mrs. Larry Siegal and children of Strathmore spent a few days with her parents Mr. and Mrs. Nick Velker, Sr.

Mrs. Steve Silbernagel underwent an operation in Calgary on Tuesday. We all wish her a speedy recovery.
